

Resolved, 'That the people of the island of Cuba are and of right ought to be free and independent.'

MIL. HANNA DEFIES REPUBLICANISM.

The Republicans of Nevada pretend to be in favor of the restoration of silver to its historic place as a money metal. In April, 1896 in convention assembled they declared for free coinage at the ratio of 16 to 1. In June 1896, following the lead of Mr. Hanna, they repudiated the declaration which they made in April and stood on the St. Louis platform framed by the gold syndicate.

The Republicans of Utah say they are in favor of the remonetization of silver, as the adoption of the gold standard has closed all the silver mines in the State, and a movement has been inaugurated to incorporate the Democratic financial plank in the platform of the Republican party of Utah. Mr. Hanna, Chairman of the Republican National Committee, having heard of this movement addressed a letter to United States Marshall Miller of Utah in which he says:

"I have been informed that it has been suggested that the Republican party of Utah, at the next State Convention, endorse in its platform the free coinage of silver. As Chairman of the National Committee, charged with the duties of the position, I protest against the Republicans of any State taking such action. It would be clearly in opposition to the principles of the party as declared in the platform at the National Convention at St. Louis, and I trust you will use your influence and efforts to the end that that declaration may be sustained."

So Mr. Hanna protests against the Republicans of any State endorsing the free coinage of silver, as it would be clearly in opposition to the principles of the party as declared in the platform of the National Convention at St. Louis. That settles the status of the Republican party everywhere on the silver question. A man cannot be a Republican and favor free coinage as the principles of the party are against free coinage.

In this State the test for voters at the Republican primaries is: "I am a Republican." Now Mr. Hanna, Chairman of the Republican National Committee, declares that a man cannot be a Republican and favor free coinage. What will those who claim to be Republicans and in favor of the free coinage of silver in this State do under such circumstances? They cannot serve the interests of the people and Mr. Hanna at the same time. They must choose between one and the other. If they declare for free coinage they must sever their connection with Mr. Hanna and the Republican party, and if they obey the mandates of Mr. Hanna they must abandon all pretenses of favoring the restoration of silver.

THE SPANARDS NOT OUR WORST ENEMIES.

Commenting upon a Washington report that the President is quite willing that the remaining \$200,000,000 of bonds authorized by Congress to be issued shall be offered for subscription, the Sacramento Bee says:

"Is not that simply infamous? When there was absolutely no necessity for a bond issue—when it was done by the slaves of the Gold Ring in the interest of the Gold Ring—Congress gave authority for the issuance of a bonded indebtedness of \$400,000,000. The President availed himself of the rights conferred upon him, and called for subscriptions for \$200,000,000 in bonds. It was then stated that that sum would be more than sufficient for the War Revenue bill would provide for more than enough to atone for what was lacking. This war is now only 102 days old, and already we are about to saddle on the taxpayers another absolutely needless \$200,000,000 in bonds. There are three explanations for this infamy:

"1—Bonds are what the Gold Ring wants.  
2—Congress shamelessly kept most of the war taxes away from the rich and put them on to the poor.  
3—Such corporations as were taxed, like Wells, Fargo & Co., for instance, squandered the Government and refused to pay the tax.

And now—having allowed most of the rich to entirely escape taxation, and having permitted those who were taxed to brazenly refuse to pay such taxes—the Government proposes to make up a deficiency, which is the result of fraud and swindle, by placing the burden on the shoulders of the people in the shape of another bonded debt. This is another fraud and swindle.

And the worst enemies of the people of the United States are not to be found among the Spaniards.

CONDENSED WAR NEWS.

In the recent fight at Manila between the Americans and Spaniards the Philippine insurgents remained neutral. In Cuba Gomez and Garcia, the insurgent chiefs, are combining their forces with the intention, it is said, of continuing the war against the Spaniards whether peace between the United States and Spain is declared or not.

The Cuban and Philippine insurgents may prove much more troublesome than the Spaniards. Though the United States declared war for the purpose of securing the independence of Cuba and relieving the starving reconcentrados, the Cuban insurgent leaders, if they are not misrepresented, do not appreciate the kindness of the United States. They were furnished with rations and arms by the Americans, since the latter landed in Cuba, but now that the Spaniards have evinced a disposition to surrender to the Americans, the insurgent chiefs have quit taking rations and retired to the interior of the island to continue the war against the Spaniards and make as much trouble as possible for the United States.

In the Philippine Islands the insurgents seem disposed to be as troublesome as the Cubans. Though armed by the United States they look on complacently while the American and Spanish forces are engaged in deadly combat, and then ask whether they are fighting for independence, protection or annexation. Doubtless they have a right to ask the question and are entitled to an answer, but no American at the present time is authorized to give them a definite reply. We declared at the outset that this is not a war of conquest, but with the Spanish fleets destroyed by Dewey and Schley, with the loss of only one man on our side, we seem to have forgotten our declaration, and it seems to depend to a great extent upon the manner in which the Cuban and Philippine insurgent chiefs conduct themselves, whether the United States hold the islands or not.

CONDENSED WAR NEWS.

A dispatch from Cape San Juan, Porto Rico, says there was a two hours fight before daybreak Wednesday. Eight hundred Spaniards attempted to retake the lighthouse, which was guarded by forty United States sailors. The Spaniards were driven back by shells from the Amphitrite, Leyden and Cluennath. One hundred Spaniards were reported killed.

Wm. H. Boardman of the Amphitrite was seriously wounded. Sixty women and children refugees were in an outbuilding of the lighthouse during the fight. The Spaniards opened fire with a machine gun at a distance of 300 yards. The Leyden rushed within 100 yards of the shore and poured one pounders into the Spaniards.

The ships landed 250 men during the engagement and reinforced the lighthouse. The machine gun, rifles and ammunition were left by the retreating Spaniards. The United States flag still remains on the lighthouse, but the forces have been withdrawn. The Amphitrite's guns cover the lighthouse ready for service if any attempt is made to haul down the flag.

A cable from Ponce, Porto Rico says an advance guard developed a strong Spanish force concealed north of Mayaguez. A general engagement followed. Lieutenant Byron of the Eighth Cavalry was wounded and two privates killed, and fourteen men wounded.

The enemy consisted of 1000 regulars and 200 volunteers, and were driven from their position and it is believed, with heavy loss. It is proposed to continue the march on Mayaguez at once.

The Spanish garrison at Cosmo was captured on the morning of the 9th consisting of 150 men. General Illora and Captain Lopez of the Spanish forces were killed. The American losses were six men wounded, one severely.

The Queen Regent presided at the cabinet meeting yesterday morning at Madrid. Premier Sagasta admitted that a reply from the United States had been received through the French Ambassador, but not the full text of President McKinley's term. The Spanish Ministers however, say they are fully acquainted with the main points.

The Spanish Ministers stated that as soon as the text of the Protocol was received and approved, M. Cambon the Spanish Minister at Washington would be authorized to sign it. It is also said that the settlement will be completed without difficulty.

A dispatch from London says: All advices received there from Madrid show that the correspondents are certain that M. Cambon will receive authority immediately to sign the Protocol. Senor Sagasta's statement must not be taken as effecting the general situation, but simply being an effort to make the Spaniards believe the United States has made concessions.

PRIMARY ELECTIONS.

The law says they must be held and Committees must Arrange Accordingly.

There seems to be a question regarding the method of choosing delegates to the various State Conventions. Sections 1 and 2, of an act to regulate primary elections and to protect the same from fraud, approved February 5, 1883, reads as follows:

SECTION 1.—Any committee or body authorized by the rules of customs of a political association, organization, or party to call elections of or for such association, organization, or party, in calling such election, shall at the time of making the call, adopt a resolution which shall set forth:

First.—That a primary election will be held giving the time when, and the place or places where such election will be held, and the hours between which the polls shall be kept open.

Second.—The names of the person to constitute the Election Board at each polling place.

If the person named by the committee be not present, or decline to serve, then such officers shall be appointed as provided by the election law of this State.

Third.—The object for which the election is called.

Fourth.—The qualification required for voters in addition to those prescribed by the election laws of this State.

Sec 2.—The notice of the election shall contain a copy of the resolution and be signed by the Secretary of the Committee or body, and be published at least one week prior to the time fixed for the election, in some newspaper published in the nearest precinct thereto in the county, or shall be conspicuously posted in three public places in the precinct where such election is to be held at least one week prior to the time fixed for such election.

The Silver Party State Central Committee has, in compliance with the above law adopted the following:

Resolved, That this Committee direct the County Central Committee of the Silver Party in the several counties in the State to call Primary Elections at the time designated by this Committee and to district counties, apportion delegates to the State Convention among the districts of the respective counties and supervise the election of such delegates.

Also in counties having no regular organized County Central Committee, we recommend that members of the State Central Committee in such counties be, and are hereby authorized to call Primary Elections and supervise the election of such delegates.

It has been reported that in some counties delegates to the State Convention are being appointed by the County Central Committee and the primary election as provided by law is to be ignored. It is claimed that such action has already been taken in two counties, and by the County Central Committee, and if the point is raised in the Conventions it is a question whether the delegates will be seated there is yet time to correct matters and prompt action should be taken.

One of Camp U's Boys.

A. C. Nicholas of the Nevada Battalion arrived on the V. & T. last evening on a day's furlough. He reports everything moving along in good form at Camp Saylor. The boys still hope to be sent to the front and look for orders at most any time. He reports the rations sufficient and the cooking has improved so that the boys are now having first rate. The health of the camp is good; the complaint being limited to colds and similar troubles.

The Oregon Agricultural Association has requested the battalion to find another camping ground as the horsemen now want the use of the track. It is not known as yet just where they will move. A telegram has been sent to Washington asking permission to move camp, and Major Morrison expected a reply last evening.

The officers think that as soon as the War Department finds out the situation, the battalion will be ordered to San Francisco.

M. A. John Wright Dangerously Ill.

Mrs. John Wright and two daughters went below on Sunday evening. Of late Mrs. Wright has been in poor health and she went to San Francisco to consult Dr. Lane. It was found that she was suffering from a tumor in the stomach and an operation was necessary. The operation was performed yesterday morning and during the afternoon Judge Webster received a telegram that Mrs. Wright could not recover. Mr. Wright and son William left for the city on last evening's train. Mrs. Wright is a sister of Judge Webster.

What Senator Allen of Nebraska Says of Senator Stewart.

The following letter from Senator Allen of Nebraska to Hon. H. H. Beck in reference to the work of Senator Stewart in the cause of bimetalism speaks for itself:

MADISON, Neb., August 6, 1898.

Hon. H. H. Beck, Reno, Nevada.

DEAR SIR: I have your letter of the first instant and in reply thereto, I desire to say that I would regard the retirement of Senator Stewart from the Senate of the United States at this time, as an irreparable injury to the cause of bimetalism. His great ability and experience in the field of bimetallic discussion, makes it absolutely essential that he should be returned. I know of no man whose defeat would be a greater loss than his. His loyalty to the cause of bimetalism, his great experience and incorruptible character and opinions make it absolutely necessary that he should be retained in the Senate. Of course I have no personal interest in the matter. I only speak what I know to be the truth and what all free silver Senators feel. I have been thrown very closely in contact with him, as have other bimetallic Senators, and we have all learned to acknowledge his great ability and statesmanship and have all profited by his experience and advice.

Very Respectfully Yours,

WM. V. ALLEN.

Has Come to Grief.

The Occidental Colony Company at Wellington, Nevada, organized by a number of Jewish Jews has come to grief, through the dishonesty of their officers, and now Sheriff Kinney of Ormsby is about to close out the colony. It will be remembered that in the latter part of last year twenty-one families came over from California to establish the colony on the Wymore ranch. They had purchased the property for \$14,000, which they proposed to pay from what they realized from the products of their labors. They have worked faithfully and suffered many privations, and just when success seemed in sight their President, D. Schwartz, and Secretary H. Ball, mortgaged the entire crop to the Bullion and Exchange Bank of Carson for \$1,500 and with the money decamped. When the bank instituted suit for the recovery of the mortgage was the first intimation the Colonists had of the perfidy of their officers. Their credit has been stopped and they are in danger of being driven from the land within a few days.

Abraham Siegel, one of the Colonists in an interview with the San Francisco Chronicle said:

"Our Colony was the most prosperous Jewish settlement on this side of the continent and promised to become the only successful Jewish Colony, unadvised, when this misfortune came upon us. The people who were compelled to remain are heart broken. They realize that they cannot remain, and yet they have no means to get away, nor do they know where to go. They are in a pitiable condition."

Important to Working Men.

I have just received a complete and large stock of gent's' furnishing goods, overalls, underwear, socks, gloves, neckties, collars, cuffs, etc., direct from the factory. A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can take it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, head aches, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c a bottle at S. J. Hodgkinson's Drug Store.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat chest and lungs are surely cured by it. Call on S. J. Hodgkinson Drug Store, and get a trial bottle. Regular size 50c and \$1. Every bottle guaranteed, or price refunded.

New Miles May Lose His Army.
